EXPERIENCE

PalTech Hub **Hebron, Palestine**
Backend Development Intern *Jun 2025 – Sep 2025*

- Trained in backend web development using PHP and Laravel.

PALSOFT TECHNOLOGY SOLUTIONS **Ramallah, Palestine**
Front-End Development Intern *Jun 2024 – Sep 2024*

- Developed responsive web interfaces using React, TypeScript, and Tailwind CSS.
- Integrated RESTful APIs while applying modern state management and clean code practices.

PROJECTS

Restaurant Ordering API
GitHub: github.com/1AhmadiS1/resturantordering *Project Showcase: https://lnkd.in/p/d6xSBzcW*
Fullstack Developer *Aug 2026*

- Built a Django REST Framework and MySQL/RDS backend for restaurant ordering.
- Implemented JWT auth, role-based permissions, restaurant-scoped access, Swagger docs, Docker setup, AWS deployment, and automated API tests.

Mini Jira Backend API
GitHub: github.com/1AhmadiS1/MiniJira *Project Showcase: https://lnkd.in/p/dK4TdWuQ*
Backend Developer *Jun 2026 – Jul 2026*

- Built a Jira-inspired multi-tenant backend using Django REST Framework and PostgreSQL.
- Implemented JWT auth, RBAC, permissions, and APIs for workspaces, projects, issues, comments, and attachments.
- Deployed on AWS using Docker, EC2, RDS, S3, ECR, Nginx, and Gunicorn, with automated backend tests.

Smart Student Attendance & Safety System (Graduation Project)
Backend Developer *Project Showcase: https://lnkd.in/p/d8B8mtwp* *Jan 2026 – Jun 2026*

- Built backend services for an IoT school monitoring platform using Django REST Framework.
- Implemented REST APIs, JWT authentication, RBAC, and integrations for AI face recognition, RFID, GPS, and notifications.
- Added automated tests for authentication, permissions, serializers, and core business logic.

Palestine Real Estate Platform
GitHub: github.com/yousefhantash/real-estate *Project Showcase: https://lnkd.in/p/dZ69F96r*
Frontend Developer *Aug 2024 – Oct 2024*

- Built responsive React/Tailwind features and integrated REST APIs with search, filtering, sorting, and pagination.

EDUCATION

Palestine Technical University – Kadoorie **Hebron, Palestine**
B.A. in Computer Systems Engineering (IoT) *Sep 2021 – Jun 2026*

- **GPA:** 85.28/100

COURSES & CERTIFICATIONS

- AWS Cloud Practitioner Essentials – AWS Training & Certification *Jun 2026 – Jul 2026*
- Backend REST API with Python & Django – Mark Winterbottom (Udemy) *Dec 2025 – Mar 2026*
- Python Django – Maximilian Schwarzmüller (Udemy) *Oct 2025 – Dec 2025*
- Programming for Data Science – Udacity *May 2024 – Sep 2024*
